PRODUCT FEATURES

The **NANDI** Embroidery Yarn of 100%Viscose Filament Artificial silken Yarn prepared from supreme quality of raw material.

NANDI Embroidery Yarn is dyed with high quality processing system with use of best chemicals and assured quality.

The resultant product has adequate strength and gives excellent finishing and eases the use of complicated machines.

With wide range of colours used not only for hand embroidery but also for latest multi headed machine and computer embroidery is the quality of **NANDI** .

WASHING INSTRUCTION

Washing of embroidery articles is to be done by use of mild detergents.

• If necessary, strong detergents can be used which do not contain optical brighteners or bleaching agents.

Through rising is advised and articles should not be left in piles or stacks.

Embroidered articles can be dry cleaned.

Stain removers if used should not contain bleaching agents or colour removers.

Embroidered articles should be ironed on reverse side.

NOTE

Any shade not mentioned in shade card can be prepared within 2-4days.
